

Project Name

VALSEA – AI-Powered Personalized Learning Platform

Problem Statement Track

AI in Education / EdTech (or the track you selected)

Problem You're Solving

Students struggle with complex topics, lack personalized learning, have low engagement, and don't receive real-time progress tracking. 💡

Your Proposed AI-Based Approach

AI analyzes student performance.

Recommends personalized learning paths.

Provides quizzes and progress tracking.

Uses AI recommendations to improve learning. 💡

Tech Stack

Frontend: HTML, CSS, JavaScript

Backend: Python, Firebase

AI: OpenAI API

GitHub, Firebase Hosting, Figma/Canva 💡
